**INDEPENDENT FORESTRY.**

Friday evening last at the regular  
monthly meeting of Court Saskatchewan,  
1030, I.O.F., the following resolu-  
tion of condolence to the widow  
of the late Sergt. Colebrook was car-  
ried and the recording secretary direct-  
ed to forward a copy to the Court  
Deputy of Court Duck Lake by whom  
it will be forwarded to Mrs. Colebrook.

Resolved: That we the members  
of Court Saskatchewan, No. 1030,  
I.O.F., through our sister Court Duck  
Lake desire to convey to the widow  
of our late brother Sergt. Colebrook  
our heartfelt sorrow at the severe and  
sudden affliction an all wise Provi-  
dence has sent to visit upon her, and to  
express our earnest hope that the  
Giver of all good will endow her with  
strength sufficient to enable her to  
bow in meek submission to the will of  
a merciful God with whom mistakes  
are impossible. The resolution was  
moved by Past Chief Ranger, Bro.  
Betts, seconded by Court Deputy High  
Chief Ranger Kernaghan.

The annual election of officers of  
Court Saskatchewan, 1030, I.O.F.,  
takes place at the next regular meet-  
ing on the 3rd Friday in December.  
Beside the election, the proceedings  
will be rendered, more interesting by  
the initiation of three new members  
of the local Court, which is adding to  
its members at nearly every meeting.  
It is claimed that the fraternal and  
insurance benefits attaching to Inde-  
pendent Order of Foresters are far  
and away ahead of any other like or-  
ganization. One special feature  
which should recommend the order to  
everyone in this country where of ne-  
cessity in some cases, and otherwise  
in others, medical fees come at such  
high figures, is the free medical at-  
tendance whereby each member of the  
Court is attended by the Court Physi-  
cian free of charge during sickness.

**EFFECT OF CO-OPERATION.**

Our readers will be pleased to know  
that we have made special arrange-  
ments by which THE TIMES and the  
Family Herald and Weekly Star of  
Montreal together, may be had for  
\$1.75. The Family Herald is the  
greatest weekly family newspaper in  
the world, and has been wonderfully  
successful. So greatly has it grown  
that its publishers have had to enlarge  
it to sixteen pages, and even now it  
is hard to get all the good things in.  
No family can afford to do without  
the Family Herald, for not only does  
it amuse and instruct but it repays its  
subscription price many times over.  
All the successful farmers, breeders  
and dairymen endorse it because they  
find in it advice and instruction that  
is priceless to them, and which they  
can get nowhere else. Housewives  
find it a valuable aid to thrifty house-  
keeping. The young folks are en-  
raptured with the pages given up to  
them. It contains matter to interest  
every member of the family. This  
year every subscriber will be given as  
a premium a lovely picture called  
"Little Queenie," an artistic gem  
which everyone will want, but which  
can be got only through the Family  
Herald. Every subscriber, at no cost  
to himself, has his life insured for  
\$500 against death by railway acci-  
dents. You can get the Family Her-  
ald with its premium and free insur-  
ance, and THE TIMES for \$1.75. This  
is an offer so generous that everybody  
should accept it. Sample copies may  
be seen at THE TIMES office; or they  
will be forwarded upon application to  
the Family Herald Publishing Co.,  
Montreal.

**THE FARMER'S PAPER.**  
Since its first issue "The Toronto  
Weekly Globe" has been noted for its  
deep and enduring interest in the wel-  
fare of the Canadian farmer. What  
pertains to the advancement of that  
portion of the community has been  
kept steadily in the forefront, and the  
agriculturists of the country have not  
been slow to recognize its mainly in-  
dependence and forceful utterances on  
their behalf in the great struggles of  
the past. To-day it is as truly the  
farmer's friend as at any time in its  
career, and as a newspaper it is better  
than ever. Every page is brimful of  
good reading. The special department  
for the practical farmer and the home  
circle are always delightfully enter-  
taining and instructive. In enterprise  
as a news-gatherer it has no successful  
rival.

**HALCRO.**

Weddings are all the go now a days  
there being no less than two in this  
place during the past week. The first  
being Mr. C. H. Adams and Miss C.  
F. Cromartie who were married on  
Tuesday, November 12th, by the Rev.  
H. Foote. The wedding was well  
attended, although rumor had been  
circulated that the wedding was post-  
poned, which hindered some of the  
guests being present. An enjoyable  
evening was spent, the dancing being  
kept up from four o'clock in the after-  
noon till four o'clock in the morning.  
The bride was the recipient of some  
useful and very handsome presents.  
The happy pair started for their home  
early the next morning, carrying with  
them the best wishes of everyone pres-  
ent, where it is hoped they will spend  
a long life of joy and happiness.

On Thursday, Nov. 16th again the  
Halcro settlement was the scene of  
much gaiety, the occasion being the  
approaching marriage of Mr. S. J.  
Paul and Miss S. E. Bird. The boys  
all with their best girls preparing to  
go to the marriage, with their homes  
nicely decorated for the occasion made  
a grand appearance. The day was  
fine, the sun shining its brightest.  
After the ceremony which was per-  
formed by the Ven. Archdeacon J. A.  
McKay, the party assembled at the  
residence of the bride's father where a  
pleasant evening was spent, the assem-  
blage dispensing about 3 o'clock in  
the morning, all wishing the young  
couple success. The brides on both  
occasions were given away by Mr.  
Cromartie.

It is exceedingly pleasant to notice  
how many of our public men are tak-  
ing an active interest in Canadian lit-  
erature. In the November Canadian  
Magazine, Hon. Wm. Proudfoot,  
Justice, of Toronto, writes of the  
Legend of St. Alban, the only historic  
saint now possessed by the English  
Church, and shows that the story has  
no foundation in truth. The illustra-  
tions in this month's issue are a con-  
siderable improvement, the article on  
Kingston Penitentiary being very  
fully embellished with well executed  
pictures of the various departments of  
that great institution. Principal  
Grant, of Kingston, reviews J. Castelli  
Hopkins' "Life of Mr. Gladstone,"  
and Harry W. Brown criticizes the  
two recent volumes of poetry by Arthur  
J. Stringer. The announcement is  
made that Roberts, LeMoine, Camp-  
bell, Bourne, James Maule Machar,  
Jean Blevins, etc., and others, will  
contribute to the Xmas number of  
this our national magazine.

A most useful feature in connection  
with the November number of Stovel's  
Pocket Directory is the plan showing  
the Electoral Divisions of Manitoba,  
issued in connection with the provin-  
cial map. Besides the official changes  
in time tables, postal information,  
stage routes, and N.W.T. game laws;  
there is also published a complete in-  
dex of stations, county court sittings  
for 1896; hockey, curling and football  
clubs; making the issue complete and  
up-to-date.

A most important cladding an-  
nouncement appears this week in  
another column. Subscribers of THE  
TIMES are thereby afforded an oppor-  
tunity to get that wonderful weekly  
paper, the Family Herald of Montreal  
clad with THE TIMES. Of the Fam-  
ily Herald and Weekly Star of Mon-  
treal, it is scarcely necessary to do  
more than mention its name, for it  
has become a household word, not  
only in Canada but all over the Con-  
tinent. The Family Herald is now  
enlarged to sixteen mammoth pages,  
128 columns each week, being six  
thousand, six hundred and fifty-six  
columns, equal to about one hundred  
large volumes a year. The Family  
Herald is recognized as par excellence  
the great weekly newspaper of Amer-  
ica, and with THE TIMES the two fill  
the bill to overflowing.

The Manitoba Free Press, in speak-  
ing of the Cambridge Piano says: "They are  
genuine works of art, and reflect the  
highest credit upon the firm which has  
produced them. The old style of upright  
pianos is thrown into the shade. The  
Cambridge Piano has a continuous look  
which will be appreciated in the play-  
ing of duets; sitting down to the  
instrument the performer touches a lever and  
the keyboard is uncovered, and the hinges  
of the lid turn out of sight, and the in-  
strument presents the same artistic appearance  
when open as when shut. The Organs  
manufactured by the Cambridge company  
have been in use for over twenty years,  
and require no special description as they  
are so well-known and liked in the homes  
of the thousands over the whole world.  
However, the company is manufacturing  
a six Oct. Organ in Piano case which is  
having a wonderful sale. The Pianos  
made by the Cambridge Piano Co. are a  
credit to Canadian enterprise, being com-  
parative to the best made in the world."

The Weekly Globe and THE TIMES  
from now till end of 1895 for \$1.40,  
advance.

Just arrived the finest assortment of silverware in town suitable for presents, etc., at Geo. W. Baker's.

Mr. B. McBoath and wife returned from their wedding tour by Saturday evening's train. They will take up their residence at the east end, where our young friend "Bob" occupies the position of station agent. We welcome them home, and wish them a happy and prosperous life.

Wonderful times at the Salvation Army next week. Capt. Bailey will arrive on Saturday, 23rd inst., and will bring with him a magic lantern, exhibiting at least fifty views, twenty of these being called "The Flower of Faith." Admission to lantern service 15 cents. Everybody welcome. The Captain will remain four days leaving again for the south on Thursday morning.

The adjourned meeting of the Literary Institute took place Thursday last. As suitable quarters on the front street had not been secured, it was decided to again adjourn for a week, and a small committee appointed to look after the securing of rooms. The meeting takes place to-morrow evening in the town hall, at 7:30 o'clock where it is to be hoped there will be a large attendance of those who wish to see the institute kept going.

Saturday's evening's train brought home D. H. Macdowell, Esq., the popular M. P. for Saskatchewan, who has been absent in the east for some months attending to important private business. Mr. Macdowell was accompanied by his brother H. Macdowell, Esq., of Garthland, Scotland, whose last visit to this place was some twelve years ago, in 1883. Mr. Macdowell, no doubt, will be greatly surprised at the many important changes and improvements which have taken place in our town since then.

The Advocate moved into its new quarters on Church street on Friday last. The following day THE TIMES followed suit and moved into the premises vacated by The Advocate.

Waghorn's Guide for November is out, posting us on all changes in time cards, new post offices, mails, etc. The index to railway stations introduced last week has been further extended and ranks as a most valuable feature of the Guide, being the only record of existing railway points in the western provinces. The new county court sittings are given, as also the recent amended game laws in the Territories, a table of provincial fees chargeable for letters patent, for joint stock companies, etc., is introduced, and all recent changes in general business tables will be found carefully recorded. Sun and moon tables almanac and diary are given.

The Salvation Army is all alive and actively engaged in preparing for its annual Self-Denial Week which takes place throughout Canada from November 26th to December 1st, inclusive. Large sums of money have been raised in past years, and it is a wonderful testimony to the Army's development and activity. Each member of the Army, as well as the friends of its many social institutions, are asked to abstain from all luxuries, and in many cases officers and soldiers have actually determined to do without certain articles of food which are ordinarily considered necessary, in order that by their acts of self-denial they may add financial support to the Army and its many different branches of work. A new feature has been introduced this year, which consists of a prettily designed sack, hundreds of which will be scattered throughout the country among friendly farmers and others, who will have the opportunity of filling the same with any kind of grain they may feel disposed to give. The special operations through out Canada have been greatly developed during the past twelve months, new Food and Shelter having been opened at Winnipeg and Victoria respectively. As a natural consequence therefore, the demands upon the Army's funds have increased, and this will require still greater effort to raise a corresponding increased amount during this special Self-Denial week. The total amount aimed at is \$25,000.

Don't go around with cold fingers when you can get gloves so cheap at Geo. W. Baker's.

We have a few \$1 and \$5 clocks left, call and get a bargain at Geo. W. Baker's.

Ladies, don't forget to see the Jackets and Trimmed Hats at F. C. Baker's.

Startling Facts Relative to European Armies—Effects of Night Discipline.

Dr. Langer, who was appointed at the late international medical convention of London to report about the number of suicides among soldiers of various nationalities, published the results of his investigations. From the doctor's report, based upon the military statistics from 1875 to 1887, it appears that the largest number of suicides occurred in the Austrian army, averaging every year 120 to every 10,000 soldiers. This does not include forty cases of foiled attempts at suicide, and it represents 20 per cent. of the general mortality among the Austrian soldiers.

Next to Austria is Germany, which from 1875 to 1888 averaged sixty-three to every 10,000 soldiers, not counting ten cases of unsuccessful attempts at self-destruction. In the Italian army from 1874 to 1889, on the average, forty soldiers in every 10,000 committed suicide every year. The French army from 1872 to 1889 lost in Europe twenty-nine soldiers to every 10,000 annually, and in Algeria lost just twice as many by suicide. In Belgium there occurred twenty-four, in England twenty-three, in Russia twenty, and in Spain fourteen soldiers to every 10,000 committed suicide.

In previous years in England the greatest number of suicides occurred among old soldiers, but since the conditions of the service were changed the number of young suicides increased in the army. In France, Italy, Germany and Austria most of the suicides are young soldiers; in Austria especially mostly recruits commit suicide in the first few months of their joining the army.

Soldiers serving a term of imprisonment seldom commit self-destruction, but they commit it mostly when other disciplinary measures are applied to them.

**Power of the Whale.**  
The horse power of a whale has been made a subject of study by the eminent anatomist, Sir William Turner, of the University of Edinburgh, Scotland, in conjunction with the equally eminent Glasgow shipbuilder, John Henderson. The size and dimensions of a great fin whale stranded several years ago on the shore at Longridge furnished the necessary data for a computation of the power necessary to propel it at a speed of twelve miles an hour. This whale measured eighty feet in length, twenty feet across at the flukes of the tail and weighed seventy-four tons. To attain a speed of twelve miles an hour one hundred and forty-five horse power was necessary.

**WOMEN AS DETECTIVES.**

They are Not Well Adapted to This Line of Work.

It is said that women detectives are not as persevering as men unless they are actuated by motives of revenge or jealousy, and in those cases a woman will persevere until she drops dead in order to accomplish her object. She will do more for revenge than she will for love. As a general thing, too, women engaged in this sort of work are untrustworthy and are led by their passions, prejudices and sympathies. They look at a case as they want it to be, not as it is. They work on it, says the Chicago Tribune, from intuition and not from settled plans of reasoning based on facts. They are good at entrapping men, but wind up with a blunder which betrays them. There are, too, frequent temptations that a woman is less liable to understand than a man. A woman criminal uses all the artifices common to her sex to play upon the woman detective's feelings, so as to be permitted to escape, or a handsome, fascinating man forger or bigamist would try to make himself appear a hero, much maligned and falsely accused. A woman, knowing her practical immunity from punishment, is more lenient than a man. If she is cornered she cries, and a judge or jury will acquit her of criminal negligence; but a man might cry his eyes out and the law would hold him responsible for the escape of the criminal.

**CHINA'S RICHEST MINES.**

The Most Valuable Mineral Deposits Are at Jaho—Worked by Coolies.

John Gilden returned to Chicago recently from China, where for the past year he has been in the employ of the Chinese government at the mines of Jaho, says the San Francisco Call.

"Jaho is the ancient capital of Mongolia," says Mr. Gilden, "and is about three hundred miles inland. On the way to the mines we rode horseback all the distance and passed through many villages, the inhabitants of which had never seen a white man. In some places the women and children would double lock the doors and hide, while the men would follow us wherever we went out of curiosity. They didn't understand how we came to be without guns and were mystified at our appearance and style of dress, but no attempt was made to molest us."

**Taking Quinine.**

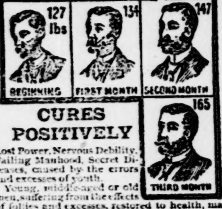

The quantity of quinine which some people can take without trouble is so great as to be almost wonderful, says a physician. There are many people who think that four grains is a dose, and very few people ever take more than from ten to fifteen grains at a time. Even the latter dose is apt to cause unpleasant sensations, such as a buzzing sound in the ears and a sort of dull, heavy feeling next morning. Yet I have known of cases where the patient had as much as one hundred grains of quinine in his system and did not suffer from the effects. Of course, such doses can be administered only in extreme cases, where the fever is very high and heroic measures are necessary. You know that a person suffering with great physical pain can safely take doses of morphine which would kill a well man, and people with a high fever can take doses of quinine without bad results which would drive a healthy person half crazy.

Every business man ought to read "Dollars and Sense," a money making book by Nathaniel C. Fowler, Jr., the leading expert on business and advertising. 18 chapters illustrated with 100 plates, presenting every style of effective advertising, with examples of reading notices, circulars and headlines. It tells the plain truth about advertisements and exposes ineffective methods. "Any reader of THE TIMES who will send check, postal note or postage stamps to the value of twenty-five cents to the Trade Company, Boston, Mass.—I will receive the book by prepaid mail."

The November number of the Delinquent is called the Thanksgiving number, and illustrates a bewildering wealth of autumn and winter fashion the collection of stylish and becoming garments being particularly complete. A novel departure in millinery is noted and the colors and combinations in the seasons dress goods and the glint and glitter of their spangled and jeweled trimmings are attractively described. Mrs. Roger A. Pryor furnishes a gossip and circumstantial account of dinner giving in society, and Juliet Carson writes interestingly on Domestic service as an employment. The best kind of a Thanksgiving dinner is described with receipts for all its dishes, and a timely article on carving tells us just how to gracefully dismember the noble bird that occupies the place of honor in the menu given. Helen North details the varied industrial instruction to be had at Pratt Institute, Brooklyn, both children and adults will be delighted to learn just how the crepe paper brownies are made and with these and other interesting little figures, Harriet Forbes shows how burnt work decorations may be applied to creases, portieres and furniture, and Sarah Kirby describes and defends Froebel's Own Manual of kindergarten work. J. Landfear gives illustrated instruction for a beautiful Greek pantomime drill. There is the usual entertaining treatable talk, as well as papers on Oriental rugs. Some artistic screens, floral work for the month, a novel entertainment and latest ideas in knitting, tatting, lace making, etc. Address all communications to the Delinquent Publishing Co., of Toronto, Limited, 14 Richmond St. West, Toronto Ont.
